All vehicles must stay on Main Roads

If you are unsure about your intended route, ask a Wrigley Institute staff member.

Coves on the west end of the island (Howlands, Emerald, Cherry, & Fourth of July) are *PRIVATE PROPERTY*; you will need prior approval before traveling here. For a list of who to contact, see the backside of this map.

NOTE: smart phone mapping applications are not reliable on the island

Rocks

General guidelines for access to private coves/camps on Catalina:

Before visiting any of the private coves on Catalina Island, you should plan to receive prior approval from the property or properties. Property owners will want to know (1) what you hope to do there and (2) dates and times when you plan to be on-site. For some of the coves, access will be restricted when youth programs are in session.

For drone flights associated with research activities, be aware that the coves are on Catalina Conservancy and/or Catalina Island Company property and would default to their parent company's drone policy. See page three of this document for a map of Catalina Island ownership and leases.

On-Site Contacts:

Fourth of July (Catalina Island Company property)

o Site Manager: Mark "Bear" Serratt Cell: (310) 963-6275 Email: covemanager@fjyc.org
